Dear Mrs King

Advisory Car Share Parking Spaces

In accordance with the strategies contained in the Council's third Local Transport Plan (LTP3) the Council are proposing to provide advisory car share parking spaces in some of its off-street car parks.

In 2010 consultations on this matter with various stakeholders were undertaken in the form of two newsletters and the publication of a final draft plan in December 2010.

The strategy has now moved on and the Council are in a position to begin installing the car share bays.

It is proposed to install car share bays in the quantities shown at the following car parks which are located within your Ward/Parish. Where the new spaces are installed in Pay and Display car parks, parking fees will continue to apply to vehicles which are using the car share spaces. The spaces will be located in convenient areas and their aim is to help reduce congestion and cut pollution by encouraging the practice of car sharing.

- Flamborough Road 2 car share spaces
- Hilderthorpe Road 2 car share spaces
- Moorfield Road 2 car share spaces
- Palace 2 car share spaces

For your information I enclose a plan showing the proposed location of the car share spaces in each car park. Each space will be individually signed and will have its own 'car share' marking on the ground.

In order to progress this matter I would be pleased to receive any comments you may have on this project by 20th January 2012.

Yours sincerely

Dean Edwards
